### Summer Fun Fact :

The popsicle was invented by accident.

In 1905, Frank Epperson, an 11 year old boy in San Francisco accidentally left a cup of soda and a stirring stick outside his porch. The next morning, he found the drink frozen. Seeing that it was a new way to enjoy the cold beverage, he began selling the frozen pop at an amusement park in New Jersey. In 1923, he launched "Epsicles" until his children persuade him to change them to "Pop's sicles." Today, this summer favourite is made in various flavours, colours and shapes. Around two billion popsicles are sold every year.
